LABOR PARTY GETS STRONGER

Liberal Government Has Given Great Deal of Labor Legislation in Britain

LABOR LEADERS WANT FURTHER MEASURE

Hops to Have Increase of 100 Labor Members in the British House

London, Feb. 10.—Since the Liberal party returned to office in 1905 and particularly since it has depended for its political life on the support of the Labor and Nationalist parties, more legislation of the kind advocated by trades unions has been enacted than at any similar period in the history of the country.

Still Labor, at least the Independent Labor party, which is largely nominated by the Socialists, is not satisfied and has arranged a program which last year's president of the party, Hon. T. Fisher, admitted contains expectations much greater than the present. Mr. Fisher says that the party had not done what it should have done, the fault lying in the fact that it lacked numerical strength. Its weakness is now, he added, to make it the dominating, controlling, guiding, and ruling party of the state.

Looking to the future, for the immediate future the party platform contains plans looking to the further improvement of the conditions of labor; a right to work bill, that is, a law making it obligatory upon the government to provide work for those desiring it; the limitation of night work as far as possible; a law which would place the burden on the land until the nationalization of land has been accomplished; the nationalization of mines and mills for the improvement of the hours of working men.

The industrial unrest of last year resulted in great numbers of workers joining trade unions and labor bodies. Therefore the leaders are satisfied with strikes, whereas others who say they mean more to the party. Further impetus was given to the movement by the success of the Socialists in Germany, when the Englishmen are now hoping to emulate. The propaganda of the party is the country raising men to the unions and threatening to strike unless unions are prevented from working side by side with trade unions, the only reason for the strike in the cotton mills of Lancashire.

Two Labor Delegates. Two Labor delegates are about to make their appearance. One is the Daily Herald, a paper which is the Morning Labor, which is to be amalgamated with the Morning News. The second paper is to be the Daily Citizen, which is the official organ of the party. A fund of \$150,000 is being raised to make a start on this project, which is expected to cost \$100,000 towards it and will give both financial and other support in the future.

The leaders have sent themselves the task of increasing the Labor representation in the House of Commons from 12 to 14 and with the consent of many they believe they can dominate not only money, but also foreign politics.

MAY HAVE LOST LIVES ON WAY TO OIL FIELDS

Wreck Reported in Prince Rupert Indicates That Seven Prospectors May Have Been Killed on Way to the West Coast of Graham Island

Prince Rupert, B.C., Feb. 11.—A report received here indicates that seven men may have been lost on the west coast of Graham Island, a small island of the coast of Alaska. The report was received from a man who had been on the island for some time and had seen the bodies of the men.

The men, who were on the island for some time, had been on the island for some time and had seen the bodies of the men. The men, who were on the island for some time, had been on the island for some time and had seen the bodies of the men.

NEW WORKERS CAUSES A PANIC

All Fire Fighters of New York Called Out to Stay Progress of Flames

THOUSANDS ROUTED BECAUSE OF FLAMES

Despites Fears of the Authorities Not One Person is Injured in Panic

New York, Feb. 10.—A fire so serious, that practically all of the firemen and fire engines in the city were summoned to the scene, broke out last night in one of the most crowded sections of New York, near the Bowery, between Broadway and Avenue C. The fire, which was caused by a gas stove, spread rapidly and caused a panic among the thousands of people who were in the neighborhood.

BORDER PLEASERS LUMBER COMBINE

B. C. Men Wait on Government and Express Satisfaction With New Regulations

DEFEND THE REQUESTS FOR MORE PROTECTION

The Prime Minister Promises His Consideration to Their Representations

Ottawa, Feb. 11.—British Columbia lumbermen, who have been in Ottawa attending the lumbermen's convention, on Saturday afternoon waited on the government in the council chamber to present their views in regard to the recent change in regulations affecting the lumber trade. The change, which was made by the government, was to increase the duties on lumber imported from the United States.

JOHN HOWEY C. F. HAYES
Managing Editor Business Manager

MONDAY, FEBRUARY 12, 1912.

The Hudson Bay railway is not
being built.

If the Opposition had sufficient
youthful strength in the Ed-
monton-Dunvegan railway would not
be built.

If the railway policy of the
Province were dictated by Mr.
Hendry of Ontario, Mr. Riley of
Gleichen and Mr. Trevellick of
Calgary, and Mr. Michener of
Edmonton, about how many miles
of railway would be built into the
north country, in say, the next
hundred years?

Two years ago the Opposition
declared that if A. J. D. McArthur
were building the A. and G. W.
road all would be built. Now
that A. J. D. McArthur represents
the A. and G. W. road, the
building of a road to the Peace River
country the Opposition attitude
toward railway extension into the
north country has not changed.
Circumstances have required
them to change the reason they
offer for the attitude.

The Opposition added correct-
ness to the policy of guaranteeing
bonds as a means of inducing rail-
way construction. They oppose
the guaranteeing of bonds of a
company proposing to build a
railway from Edmonton to Dun-
vegan and beyond. Their posi-
tion is that it is proper that rail-
way bonds should be guaranteed,
but not bonds for a line from Ed-
monton to the Peace River coun-
try.

When the member for Sturgeon
proposed that the Govern-
ment build a railway into the
north country, the Opposition
fought the proposal. Now that
the Government propose that it
be done, the Opposition is fighting
the proposal. The working maxims of the
Opposition seems to be to oppose
whatever the Government pro-
poses to do or seems likely to do,
at least when the proposal is for
the extension of railways into the
north country.

Mr. W. J. Trevellick has taken
early opportunity to show that
his accession to his presidency
bodes no good for the United
Farmers' organization. As a pri-
vate individual Mr. Trevellick
was free to say what he pleased
upon his own responsibility. But
when as president of the United
Farmers he begins to neglect poli-
tics and prejudices into that
body he is ignoring into what
has never yet been imported into
a farmers' organization without
breaking it into pieces.

The Journal has taken to quot-
ing letters from the solicitors of
the A. and G. W. to prove that
the Sturgeon Government is in-
competent in dissolving that com-
pany. The friends of the Journal at Ottawa
listened to all of what the A. and
G. W. Company had to say and
then refused to find that the Stur-
geon Government had done un-
justified or that it in-
validated previous rights of the
parties concerned. As between
the two, the opinion of Mr. Bar-
den and Mr. Doherty will prob-
ably be accepted by the public
before that of the solicitors of the
company and the newspaper
which has assumed the task of
pleading the company's cause.

NEWS OF THE DISTRICT

NEWS FROM DOWNS.

H. F. Powell has been in Calgary
for a few days.
H. Hawkins and son, of Calgary,
were visiting J. Hocking on Wed-
nesday.

J. C. Housman has returned
from Calgary.
E. Shuffield went to Calgary on
Wednesday.

George Brewster was in Edmon-
ton last week on business.
McMahon, Fred Beer, is
visiting his brother J. McMahon.
McLean & Kullman have shipped
a cargo of hops to Calgary this
week.

Mr. H. Strong left Bowden on
Wednesday for Spokane, where she
intends spending a few weeks.

W. J. Farrell and H. Evans have
formed a partnership and will es-
tablish a Drilling Implement agency
in Innisfail.

Miss Minnie Hall has returned
from an extended visit to friends in
Banff, Lethbridge and Calgary.

A large audience assembled in the
schoolhouse, Lorne Place, last Wed-
nesday evening to hear Mr. E.
Davies deliver a lecture entitled
"The Light and Shadow of Lon-
don Life". During the course of the
evening vocal selections were ren-
dered by Mrs. Davies, Miss and
connet duets by Mr. and Mrs. Davies
and songs by the choir.

Mr. Evans presided at the organ
and the choir fulfilled the
duties of chorists.

An interesting lecture on "Checks"
by J. E. Shuffield was delivered un-
der the auspices of the school-
house, Lorne Place, last Wed-
nesday evening.

THE MARKETS

WINNIEPES GRAIN MARKET

Winning, Feb. 10.—The local wheat
market was very quiet, the bulk of the
business that was transacted was
during the early part. Cables were
lower, Liverpool closing 1-4 cent lower
on all months and with a poor demand,
before trading prevailed until the
close. Winnipeg closed 3-8 cent lower
for all months.

The cash demand was normal but
export bids are getting almost ad-
ded in this department.

American wheat markets were weak
and prices on the dollar, while corn
and oats were steady. Minneapolis
closed 1-4 cent lower for May, 3-4
cent lower for July and 3-4 cent
lower for September.

Receipts are continuing heavy, there
being in sight for inspection 230 and
240,000 bushels.

The following are today's quotations:

PRIVATE COMPANIES VERSUS GOVERNMENT

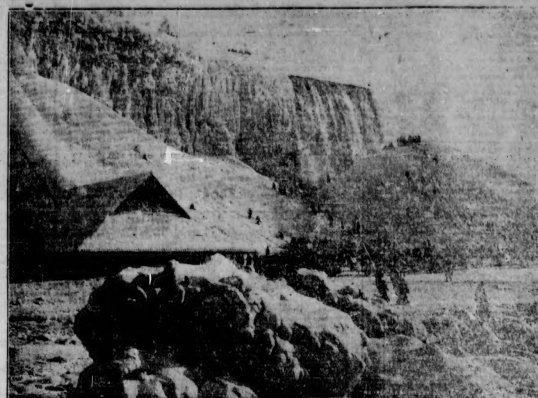

How Private Hail Insurance Has
Worked in Manitoba and Saskatch-
ewan—They Can Give Better
Terms—Companies Accept None.

Opposition is being offered to the proposal of the government to discontinue the operation of hail insurance business as a department of governmental activity, notwithstanding the fact that during the six years in which hail insurance has been handled by the government it has resulted in a net loss to the province of \$522,900. It would seem that there is some misconception on the part of the hail insurance committee of the United Farmers of Alberta as to the position the farmers will be in with regard to their hail risks after the bill before the House comes into operation. It should be clearly understood that the government have no intention of leaving the farmer entirely to his own resources in securing himself against losses from hail. True, the bill proposes to repeal the Hail Insurance act of 1910 and to allow private companies to take hail insurance risks within the province.

Nevertheless the new act provides that no company shall carry on the business of insurance against loss or injury to crops by hail, excepting with the approval of the lieutenant-governor-in-council. Subject to such approval any such company may, upon complying with the provisions of the Companies' Ordinance or the Foreign Companies Ordinance, carry on such business in Alberta during the period for which such approval may be given.

Assured Financial Standing.
Before such approval is given to any company the provincial treasurer shall have inquiry made into the financial status of the company and he shall be satisfied that the company may reasonably be expected to be able to indemnify all policyholders, and shall also require the company to deposit with him the sum of \$5,000 or its equivalent, such deposit being held by the provincial treasurer to be applied in his discretion in the settlement of any established claim for indemnity against the company and which the company have not paid. The names of the companies authorized to operate under the act will be published from time to time in the Alberta "Gazette."

There is therefore no need to fear that the farmers will be left to become the prey of unscrupulous insurance brokers, or that their claims will not be fully and adequately met by private companies with whom they may insure. Whatever the record of private company hail insurance in the province of Alberta, has been in the past, in the future all such companies must be of thorough reputation, good financial standing and willing to meet all just, fair and reasonable claims made upon them by policyholders. In the event of any company which is not thoroughly honest in its intentions getting into the province in spite of the precautions which will be taken by the provincial treasurer, the policyholders

NAGAR'S FAMOUS ICE BRIDGE—Which broke up last Sunday, three for the eyes of Frank Benson. The picture shows the ice held in confidence thousands were taking chances on the ice held before the "mainland" may be seen to the left of the picture.

are protected against fraud by the deposit which the company must place in the hands of the provincial treasurer and out of which he will adjust bona fide claims which the company have refused to meet.

Insurance With Municipality.
Farmers who do not wish to insure through private companies will have the option of placing their risks with the municipality of their district. Rural Municipality bills which received the assent of the House on Wednesday, provide that rural municipalities, by the votes of the majority of the electors, may take up the business of hail insurance and levy a hail insurance tax within that district. To give stability to the scheme and to spread the burden over an area sufficiently large to prevent an unreasonable strain on the funds of any one municipality in any one year the act provides that twenty rural municipalities shall co-operate together and that such municipality must remain in the scheme for five years. The revenue of the municipalities will be constituted a hail insurance board which will assess the land in the district for the purpose of hail insurance and adjust claims.

Companies Giving a Flat Rate.
The experience of the farmers of Manitoba and Saskatchewan, however, proves that in these provinces hail insurance by private companies has

worked out satisfactorily. There are several companies of undoubted standing already doing business. Such companies may be divided into two classes, one class giving a flat rate of \$5 on \$100 insurance at which rate they will take the risks of any farmer no matter whether he is farming land which has a record of being hailed out or not. Under this flat rate they will insure the farmer for from \$2 to \$18 per acre. This rate is cheaper than was given by the government—\$4.25 for \$100 insurance—while the maximum indemnity offered by the government was only \$4 per acre.

The government hail insurance was conducted throughout on a cash basis. Under no circumstances is it likely that a government would do business on credits. The acceptance of promissory notes in respect of hail insurance premiums is one of the chief demands of the U. F. A. hail insurance committee. These notes are, however, accepted by the private companies operating in Manitoba and Saskatchewan, the credit rate being 1-1/2 per cent. in excess of the cash rate. The promissory notes accepted by the companies are not payable until the 20th of November, and if paid before August 1st a discount of 20 per cent. is allowed. Three of the principal companies offering these rates are: The Canada National, the British Assurance Corporation, London, Eng.

with local headquarters in Moose Jaw, the Hudson Bay Insurance Co.

There is nothing to prevent a farmer insuring with more than one of these companies if he desires.

A Graduated Scale.
Insurance on a graduated scale is offered by the Central Canada Insurance company, with headquarters at Brandon, Man. This company has five different rates. A crop by new breaking or on land which has not been "hailed out" within ten years is accepted at the lowest rate. The other four rates are for crops on land which has suffered more or less from hail during a ten year period. This company, like the others, accepts the farmer's note and offers the same discount if paid before August 1st. Here are the cash and credit rates in the five classes:—

Class	Cash	Note
1—No hail in 10 years...	\$4.00	\$5.00
2—Once in ten years...	\$4.00	\$5.00
3—Twice in ten years...	\$4.00	\$5.00
4—Three in ten years...	\$4.00	\$5.00
5—Four times in ten years...	\$4.00	\$5.00

One of the above companies alone took \$3,000,000 worth of risks in the two provinces of Manitoba and Saskatchewan, and met all their obligations.

Finally the companies provide that in case of a dispute as to the amount of indemnity to be paid an arbitrator acceptable to both parties shall be ap-

pointed to decide such claims. Equitable adjustment of claims is the basis on which the companies rely for getting premiums from the same farmers year after year.

REICHTAG PRESIDENT RESIGNS.
Declines to be Associated With Socialist Vice-President.
Berlin, Feb. 10.—Dr. Reiche, leader of the clerical centre party who yesterday was elected president of Reichstag, announces he will resign the chair Monday. The cause was his refusal that he decline to be associated with a socialist vice-president. The first vice-president of the house, who also was chosen yesterday, is Philipp Scheidemann, a Socialist.

LIVE STOCK COMMISSIONER.
Dr. J. G. Rutherford Will Not Recommend His Resignation.

Ottawa, Feb. 10.—Dr. Rutherford, minister of agriculture, has declined to consider his resignation from the position of livestock stock commission. The minister of agriculture is receiving many requests bearing on the idea of retaining the doctor's services.

Expect Heavy Wheat Market.
St. Paul, Feb. 10.—Anticipating a heavy movement of wheat from Western Canada, when the reduced rates from that territory to points in the United States become effective, March 1st, and because of the extra care for the hauling of coal at the head of the lakes the Great Northern and Northern Pacific railroads have issued orders that no equipment be allowed off

Camorrist Judge Gave Issue.
Rome, Feb. 10.—Ludovico, the judge who abandoned the preliminary investigation of the charges against the Camorrist because he was convinced of the innocence of the accused, became violently insane today and was taken to a lunatic asylum. The judge, who had been in the hospital for about a month, was declared that there was a conspiracy to execute him because he was convinced the prisoners were not guilty.

EAST IN THE GRIP OF A COLD WAVE.
Toronto, Feb. 10.—This morning was the coldest since 1852. The thermometer ranged in different parts of the city from 15 to 18 below.

The latter no lightning, a snow up. All the trains are away on time, while the street car service is badly discontinued. It is predicted by the meteorologist that some cold wave has spread over the continent. The same wave is predicted as far east as Montreal.

B. J. Saunders

With Malice towards
None, and Equal
Rights to all

Why You Should Support This Candidate

If you were a shareholder in a big corporation as you are in this City Corporation, which owned millions of dollars worth of utilities, you would want a man at the head who understood such things. If that corporation were running behind financially and were not keeping up in its service to the demand of its patrons you would figure that it was not being run right. If the man at the head of that Corporation told you the trouble was caused by Engineering Problems you would want to get a man that could cope with them. If that Corporation were facing an immediate merger with another Corporation that meant a further complication of those Engineering Problems you would want to see a competent man in charge. AND FINALLY if at that juncture it was proposed to place at the head of that Corporation a man who combined rare executive ability and training as an Organizer and Systematizer with a long and successful career in the needs of a city, if you had the chance you would vote for that man wouldn't you?

THEN VOTE FOR

B. J. SAUNDERS

DUNVEGAN

The Original and Only Registered Townsite of Dunvegan
Alta., will be offered for Public Sale on

Monday, February 12th

At High Noon

Is There a Man in Edmonton or all the North-west who has not heard of Dunvegan, which has been well named "The Mecca of the Great and Wonderful Peace River Valley?" If so, we will say to him that Dunvegan is the psychological point for the Greatest city North of Edmonton in the broad domain of Canada, and offers to the shrewd investor more possibilities than any other explored or unexplored point on the map.

1—Where rail and water meet a city is invariably the result—There is a Reason.

2—It is surrounded by the richest valley on the American continent—There is a Reason.

3 $\frac{1}{2}$ —In this great valley one may produce the finest wheat that the world has ever known—There is a Reason.

4—Corn, Tomatoes, Pumpkins and many other delicate vegetables thrive and are grown profitably—There is a Reason.

5—Only a few days ago the Alberta Government gave to J. T. McArthur, the well-known railroad builder, \$7,000,000 to build a railroad from Edmonton to Dunvegan, and he begins this work with the advent of spring with this slogan: "Spare neither man, beast nor money, but rush the road to completion."—There is a Reason.

6—There are thirteen other chartered railroad lines to Dunvegan.—There is a Reason.

7—Thousands are daily leaving this Great Eldorado of Canada.—There is a Reason.

8—All eyes are upon Dunvegan—There is a Reason.

9—The first investors are the ones who reap the largest profits—There is a Reason.

10—We are placing this property on the market at prices within the reach of all—There is a Reason.

11—No one who has seen this townsite but lauds it to the skies—There is a Reason.

Were we to tell you all the virtues of Dunvegan, it would take pages like this. Call at our office on First Street, No. 650, Monday morning and we will attempt to show you the possibilities of this Eureka of the North. Sale opens promptly at 12 o'clock Monday, February 12th.

No Lots Reserved unless One-Third payment is deposited when selection is made.

No Checks Accepted Unless Marked
